#### **DETAILED ACTION**

Page 2

1. This action is in response to the Amendment filed on Dec 9, 2004.

2. As state in Interview summary that Applicant explained the differences between prior art (Kushmerick et al [6,304,870]) and the claimed invention in detail. Therefore, the finality of the

action mailed on 5/12/05 is withdrawn.

3. Claims 1-24 are pending.

# Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

5. Claims 1-24 are rejected under 35 U.S.C. 102(e) as being anticipated by US Patent No. 6,094,649 to Bowen et al. (hereinafter, Bowen).

#### Per claim 1:

Bowen discloses:

- scanning a code for a first pair of delimiters (col. 4, line 53-55 "a keyword search...location identifier");

Application/Control Number: 09/697,446 Page 3

Art Unit: 2191

- determining whether a string within said pair of string delimiters is a path name to a resource file (col. 4, line 56-62 "keyword with resource locators...include..URLs, hot links, file paths... among others"); and

- if said string is not a path name to said resource file than flagging said string as a possible hard-coded string (col. 4 lines 22-26 "One method of the invention begins... selection... one data... in the structured database; each selected item... data and has a corresponding location identifier which identifies the item's location within the structured database").

### Per claim 2:

The rejection of claim 1 is incorporated, and further, Bowen discloses:

- wherein said string is not flagged as a possible hard-coded string if said string is a path name to said resource file (col. 4 lines 22-26 "One method of the invention begins... selection... one data... in the structured database; each selected item... data and has a corresponding location identifier which identifies the item's location within the structured database").

# Per claim 3:

The rejection of claim 1 is incorporated, and further, Bowen discloses:

- wherein said code comprises platform-independent byte code (col. 7, lines 45-50 "...programming languages... Java... C++...and tools").

Art Unit: 2191

# Per claim 4:

The rejection of claim 1 is incorporated, and further, Bowen discloses:

- wherein said path name is a uniform resource locator (col. 4, line 56-62 "keyword with resource locators...include... URLs, hot links, file paths... among others").

## · Per claim 5:

The rejection of claim 1 is incorporated, and further, Bowen discloses:

- wherein said resource file is a resource bundle (col. 4, line 56-62 "keyword with resource locators...include... URLs, hot links, file paths... among others").

## Per claim 6:

The rejection of claim 1 is incorporated, and further, Bowen discloses:

- wherein said string within said first pair of string delimiters is a path name to said resource file if said string is in a dot delimited notation (col. 5, line 55-64 "a "keyword" search... of digital data using a key word or phrase... Keywords may contain wildcards... if the question mark is used as a wildcard capable of matching any single character and the asterisk is used as a wildcard capable of matching any zero or more characters...").

Art Unit: 2191

### Per claims 7 and 8:

The rejection of claim 1 is incorporated, and further, Bowen discloses:

- wherein said code is scanned line by line until said first pair of string delimiters is identified (col. 4, line 53-55 "a keyword search...location identifier").

Claim 9 is the computer program product claim corresponding to method claim 1 and rejected under the same rational set forth in connection with the rejection of claim 1 above.

Claim 10 is the computer program product claim corresponding to method claim 2 and rejected under the same rational set forth in connection with the rejection of claim 2 above.

Claim 11 is the computer program product claim corresponding to method claim 3 and rejected under the same rational set forth in connection with the rejection of claim 3 above.

Claim 12 is the computer program product claim corresponding to method claim 4 and rejected under the same rational set forth in connection with the rejection of claim 4 above.

Claim 13 is the computer program product claim corresponding to method claim 5 and rejected under the same rational set forth in connection with the rejection of claim 5 above.

Claim 14 is the computer program product claim corresponding to method claim 6 and rejected under the same rational set forth in connection with the rejection of claim 6 above.

Claims 15 and 16 are the computer program product claim corresponding to method claim 1 and rejected under the same rational set forth in connection with the rejection of claim 1 above.

Claims 17-24 are the system claim corresponding to method claims 1-8, respectively, and rejected under the same rational set forth in connection with the rejection of claims 1-8, respectively, above.
